Dear Board Members:

I would like to take this opportunity to congratulate your school district and you as individuals for the manner in which your students conducted themselves at the 1974 National Academic Olympic Games. The Olympics were a tremendous success this year. Most of the credit, of course, is due the students. They really are what this program is all about. However, without the proper leadership and dedication, that opportunity would never have been available to the students. For this, I extend you my deepest thanks and respect.

I hope that we can continue to serve your district. Our combined efforts thus far have led us to mutually share in a unique educational experience.

If there is any way at all that we can assist you, we most certainly would be happy to do so. Please feel free to write or call at any time.

Yours in education,

Robert W. Allen
Director, NAGP
